Summary

AI Engineer with experience building production-ready ML systems and LLM applications. Skilled in Python, NLP, and scalable ML pipelines on 100K+ datasets. Strong background in data structures, model optimization, and deploying AI applications using Flask and Docker.

Technical Skills

Languages: Python, SQL, Java

AI / ML: Machine Learning, Deep Learning, Natural Language Processing (NLP), Large Language Models (LLMs), Generative AI

Frameworks & Libraries: PyTorch, TensorFlow, Scikit-learn

Generative AI Stack: OpenAI API, LangChain, Hugging Face

MLOps & Deployment: Flask, Docker (Basics), REST APIs

Data Tools: Pandas, NumPy, Matplotlib

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP)

Project Experience

COVID-19 Forecasting Pipeline | *Python, Scikit-learn*

- Built regression models on 100,000+ records achieving 85%+ forecasting accuracy.
- Improved model performance by 18% through feature engineering and hyperparameter tuning.
- Designed reusable and modular training pipeline enabling scalable experimentation.

Customer Churn Prediction (Production-Ready) | *Python, XGBoost, Flask, Docker*

- Developed classification model achieving 89% accuracy using Logistic Regression and XGBoost.
- Reduced feature dimensionality by 30% without impacting model performance.
- Built REST API using Flask (¡150ms inference latency) and containerized application using Docker for deployment.

LLM-Based Retrieval-Augmented Generation (RAG) Chatbot | *OpenAI API, LangChain*

- Developed retrieval-augmented chatbot integrating OpenAI API and LangChain framework.
- Improved answer relevance by 25% using semantic document retrieval.
- Optimized prompt engineering strategies reducing token cost by 20%.

Awards & Certifications

- **IBM – Python for Data Science & AI:** Completed hands-on training in Python, data analysis, and foundational AI concepts.
- **Oracle Certified Associate – Java Programming:** Demonstrated proficiency in Java fundamentals and Object-Oriented Programming (OOP).
- **Competitive Programming:** Solved 200+ Data Structures & Algorithms problems across coding platforms.
- **AI/ML Project Portfolio:** Built and deployed 3+ end-to-end machine learning systems with production-ready components.

Education

Master of Computer Applications (MCA)

Expected 2026

Lakshmi Narain College of Technology, Bhopal

Bachelor of Computer Applications (BCA)

Graduated 2024

IPS Academy, Indore
