

GARIMA SOLAKHYA

Data Analyst — Python — SQL — Power BI — Machine Learning — Business Intelligence

☎ +91-8109002027 ✉ garimasingh44443@gmail.com 🔗 [linkedin.com/in/garima-solakhiya-01b1a030b](https://www.linkedin.com/in/garima-solakhiya-01b1a030b)

Summary

Data Analyst skilled in Python, SQL, Power BI, Tableau, and Machine Learning with hands-on experience in data analysis, dashboard development, and AI-powered analytics projects. Proficient in Exploratory Data Analysis (EDA), data visualization, predictive modeling, and business intelligence. Experienced in building real-time analytics solutions using Scikit-learn, XGBoost, and Streamlit to generate actionable insights and support data-driven decision-making.

Technical Skills

Programming Languages: Python, Java, SQL

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Exploratory Data Analysis (EDA), Data Cleaning, Data Visualization, Statistical Analysis

BI Tools: Power BI, Tableau, Dashboard Development, KPI Reporting, Business Intelligence

Machine Learning & AI: Scikit-learn, XGBoost, Random Forest, Predictive Modeling, NLP, Feature Engineering, Model Evaluation

Deployment & Tools: Flask, Streamlit, REST APIs, Docker (Basic), Git/GitHub, API Integration

Relevant Experience

AI-Powered Data Analytics Chatbot

2026

Data Analyst Project Experience

- Analyzed datasets containing 10,000+ records using Python, SQL, and EDA techniques.
- Built interactive dashboards and automated reporting workflows for data-driven insights.
- Improved query efficiency by 40% using optimized SQL queries and data processing techniques.

Projects

AI-Powered Data Analytics Chatbot | *Python, SQL, Streamlit, OpenAI API, Matplotlib*

- Developed and deployed an AI-powered chatbot for automated dataset analysis using Python, SQL, and NLP techniques.
- Processed **10,000+ records**, improved query efficiency by **40%**, and reduced manual analysis effort by **50%**.
- Built interactive dashboards and real-time data visualization features for data-driven decision-making.
- **Live Project:** <https://ai-chatbot-project-srk2ftybvmy2x4jfsfvkyj.streamlit.app/>

AI-Powered Real-Time Fraud Detection System | *Python, Scikit-learn, XGBoost, Streamlit, Pandas, Matplotlib*

- Designed and deployed a real-time fraud detection system using Random Forest and XGBoost algorithms.
- Analyzed **15,000+ transactional records** and improved fraud detection accuracy by **30%** while reducing false positives.
- Developed a real-time monitoring dashboard with risk scoring, alerts, and visual analytics for faster decision-making.
- **Live Project:** <https://your-app.streamlit.app/>

AI Career Copilot (Resume + Job Matching System) | *Python, Streamlit, OpenAI API, NLP, PyPDF2, Matplotlib*

- Built an AI-powered resume analysis and job matching platform using NLP, LLMs, and Streamlit.
- Implemented match scoring, skill gap analysis, and keyword extraction, improving job-match accuracy by **40%**.
- Developed interactive dashboards with real-time AI recommendations and visual skill insights.
- **Live Project:** <https://ai-career-copilot-auspn8mqcdrk6zw7ddaryl.streamlit.app/>

Certifications & Awards

Python for Data Science

IBM

- Learned data analysis, data visualization, and machine learning fundamentals using Python.

Google Data Analytics Professional Certificate

Coursera

- Gaining hands-on experience in SQL, Tableau, data cleaning, dashboarding, and business analytics.

Machine Learning

Coursera

- Covered supervised learning, predictive modeling, feature engineering, and model evaluation concepts.

Oracle Certified Associate – Java Programming

Oracle

- Demonstrated proficiency in Java programming, object-oriented programming, and problem-solving skills.

Education

- **Master of Computer Applications (MCA)**
Lakshmi Narain College of Technology, Bhopal
 - **Bachelor of Computer Applications (BCA)**
IPS Academy, Indore
- Expected 2026

Graduated 2024
